Importance of Issue.

Washington, January 11.—Plans for a vigorous nation-wide campaign to obtain a constitutional amendment giving suffrage to women were outlined to-day by the Congressional Union for Woman Suffrage. The program includes a schedule of "demonstration." that will, according to suffrage leaders, "awaken the country as never before to a realization of the issue, and if necessary transfer the majority in Congress to a party that will stand for suffrage."

"We are perfectly willing to have the Democrats pass the amendment, but if by the close of Congress they have not taken action we will transfer their votes to a party that will act," said Mrs. Jessie Hardy Stubbs, to-night in announcing the union's plans.

It was decided at a meeting of the union to-day, to transfer the energy of the union to the West at the close of the present session of Congress. Nevada, Montana and the Dakotas were named as the States upon which the organization will concert its efforts.

"The first of the demonstrations" will be held in Washington the last of this month, when 100 working women from various States will urge the President to support the suffrage amendment. There will be meetings held simultancously through the country on May 2, and a national mass-meeting in Washington on May 9.

Large sums of money were reported being raised for the campaign by suffrage organizations throughout the contary, and \$9,110 was pledged at today's meeting.

"We are going into every district of every member of Congress known to us to be opposed to suffrage," Mrs. Stubbs said, "paying especial attention to those where the elections showed a narrow margin for the victors."
